LU Open Science Days 2024

Palaestra, Lund University
November 19-20, 2024

Welcome to our LU Open Science Days 2024!!!

On behalf of the Organising Committee,
the **Open Science Champions**
with our University Library and Research Services support
Karolina Lindh, Alice Olsson, Johanna Mellgren

LUNDS
UNIVERSITET

Expert group Open Science Champions

The group is tasked to promote increased knowledge and awareness on open science at Lund University. This includes acting as ambassadors by advocating open science.

Expert group members

Angeliki Adamaki, Department of Physical Geography and Ecosystem Science (chair)

Monica Almqvist, Division of Biomedical Engineering

Ekaterina Chertkovskaya, Division of Environmental and Energy Systems Studies

Nicolò Dell'Unto, Department of Archaeology and Ancient History

Sara Hultqvist, School of Social Work

Nicholas Loubere, Centrum för Öst- och Sydöstasienstudier

Johan Nilsson, Department of Biology

Mauno Vihinen, Department of Experimental Medical Science

Welcome to our LU Open Science Days 2024!!!

On behalf of the Organising Committee,
the **Open Science Champions**
with our University Library and Research Services support
Karolina Lindh, Alice Olsson, Johanna Mellgren

Working group for Open Science

The working group for Open Science is tasked to monitor and analyse matters related to open science. This involves, amongst other things, to prepare questions and decision basis on behalf of the university-wide research board and to constitute a forum for discussions on various aspects of open science.

The working group for Open Science, with associated expert groups FAIR research data and Open Science Champions, was established in January 2023 with the purpose of coordinating Lund University's ambitions in the open science field. Further information is available in Lund University's research strategy 2023-2026 (to be found under "Related information").

LU Open Science Days 2023

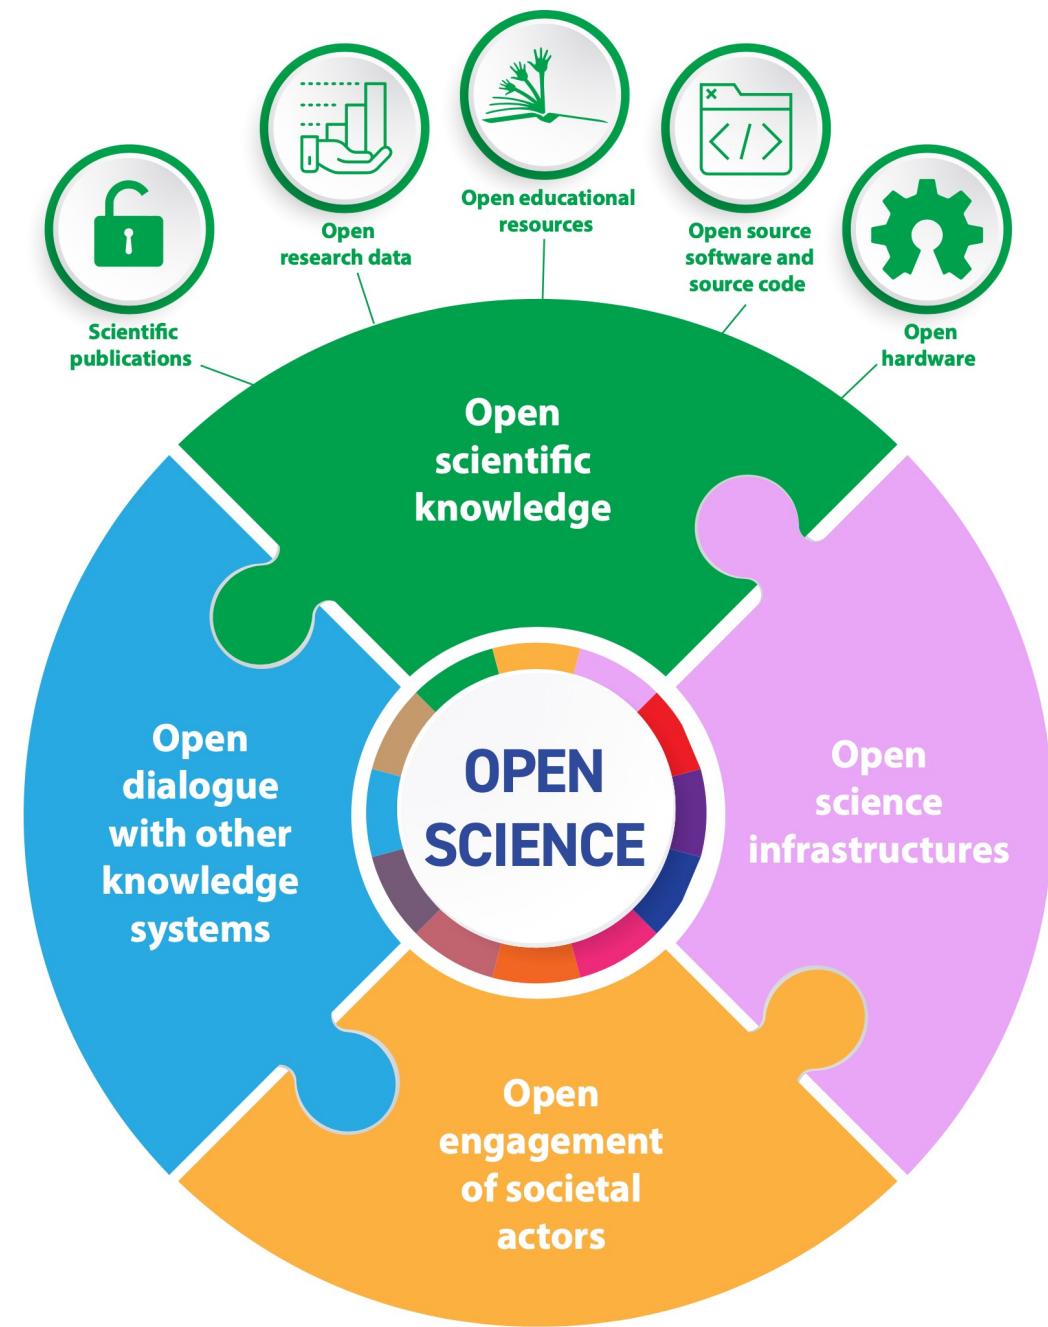

Starting from what Open Science is..

An approach that promotes transparency, accessibility, collaboration.

Open Science makes scientific research/ data/ outputs openly available to everyone!

<https://www.unesco.org/en/open-science>

Thinking of the benefits..

How can you improve your work if you get access to data from other sources?

How can others benefit from your research outputs if you publish Open Access with rich metadata?

<https://www.unesco.org/en/open-science>

**Open science
increases scientific
collaborations and sharing
of information for the benefits
of science and society**

**OPEN
SCIENCE**

**makes multilingual scientific
knowledge openly available,
accessible and reusable for
everyone**

**opens the processes of scientific
knowledge creation, evaluation and
communication to societal actors
beyond the traditional scientific
community.**

Respecting the values and following the principles..

VALUES

Quality and integrity

Collective benefit

Equity and fairness

Diversity and
inclusiveness

PRINCIPLES

Transparency, scrutiny,
critique and reproducibility

Equality of opportunities

Responsibility, respect
and accountability

Collaboration,
participation and inclusion

Flexibility

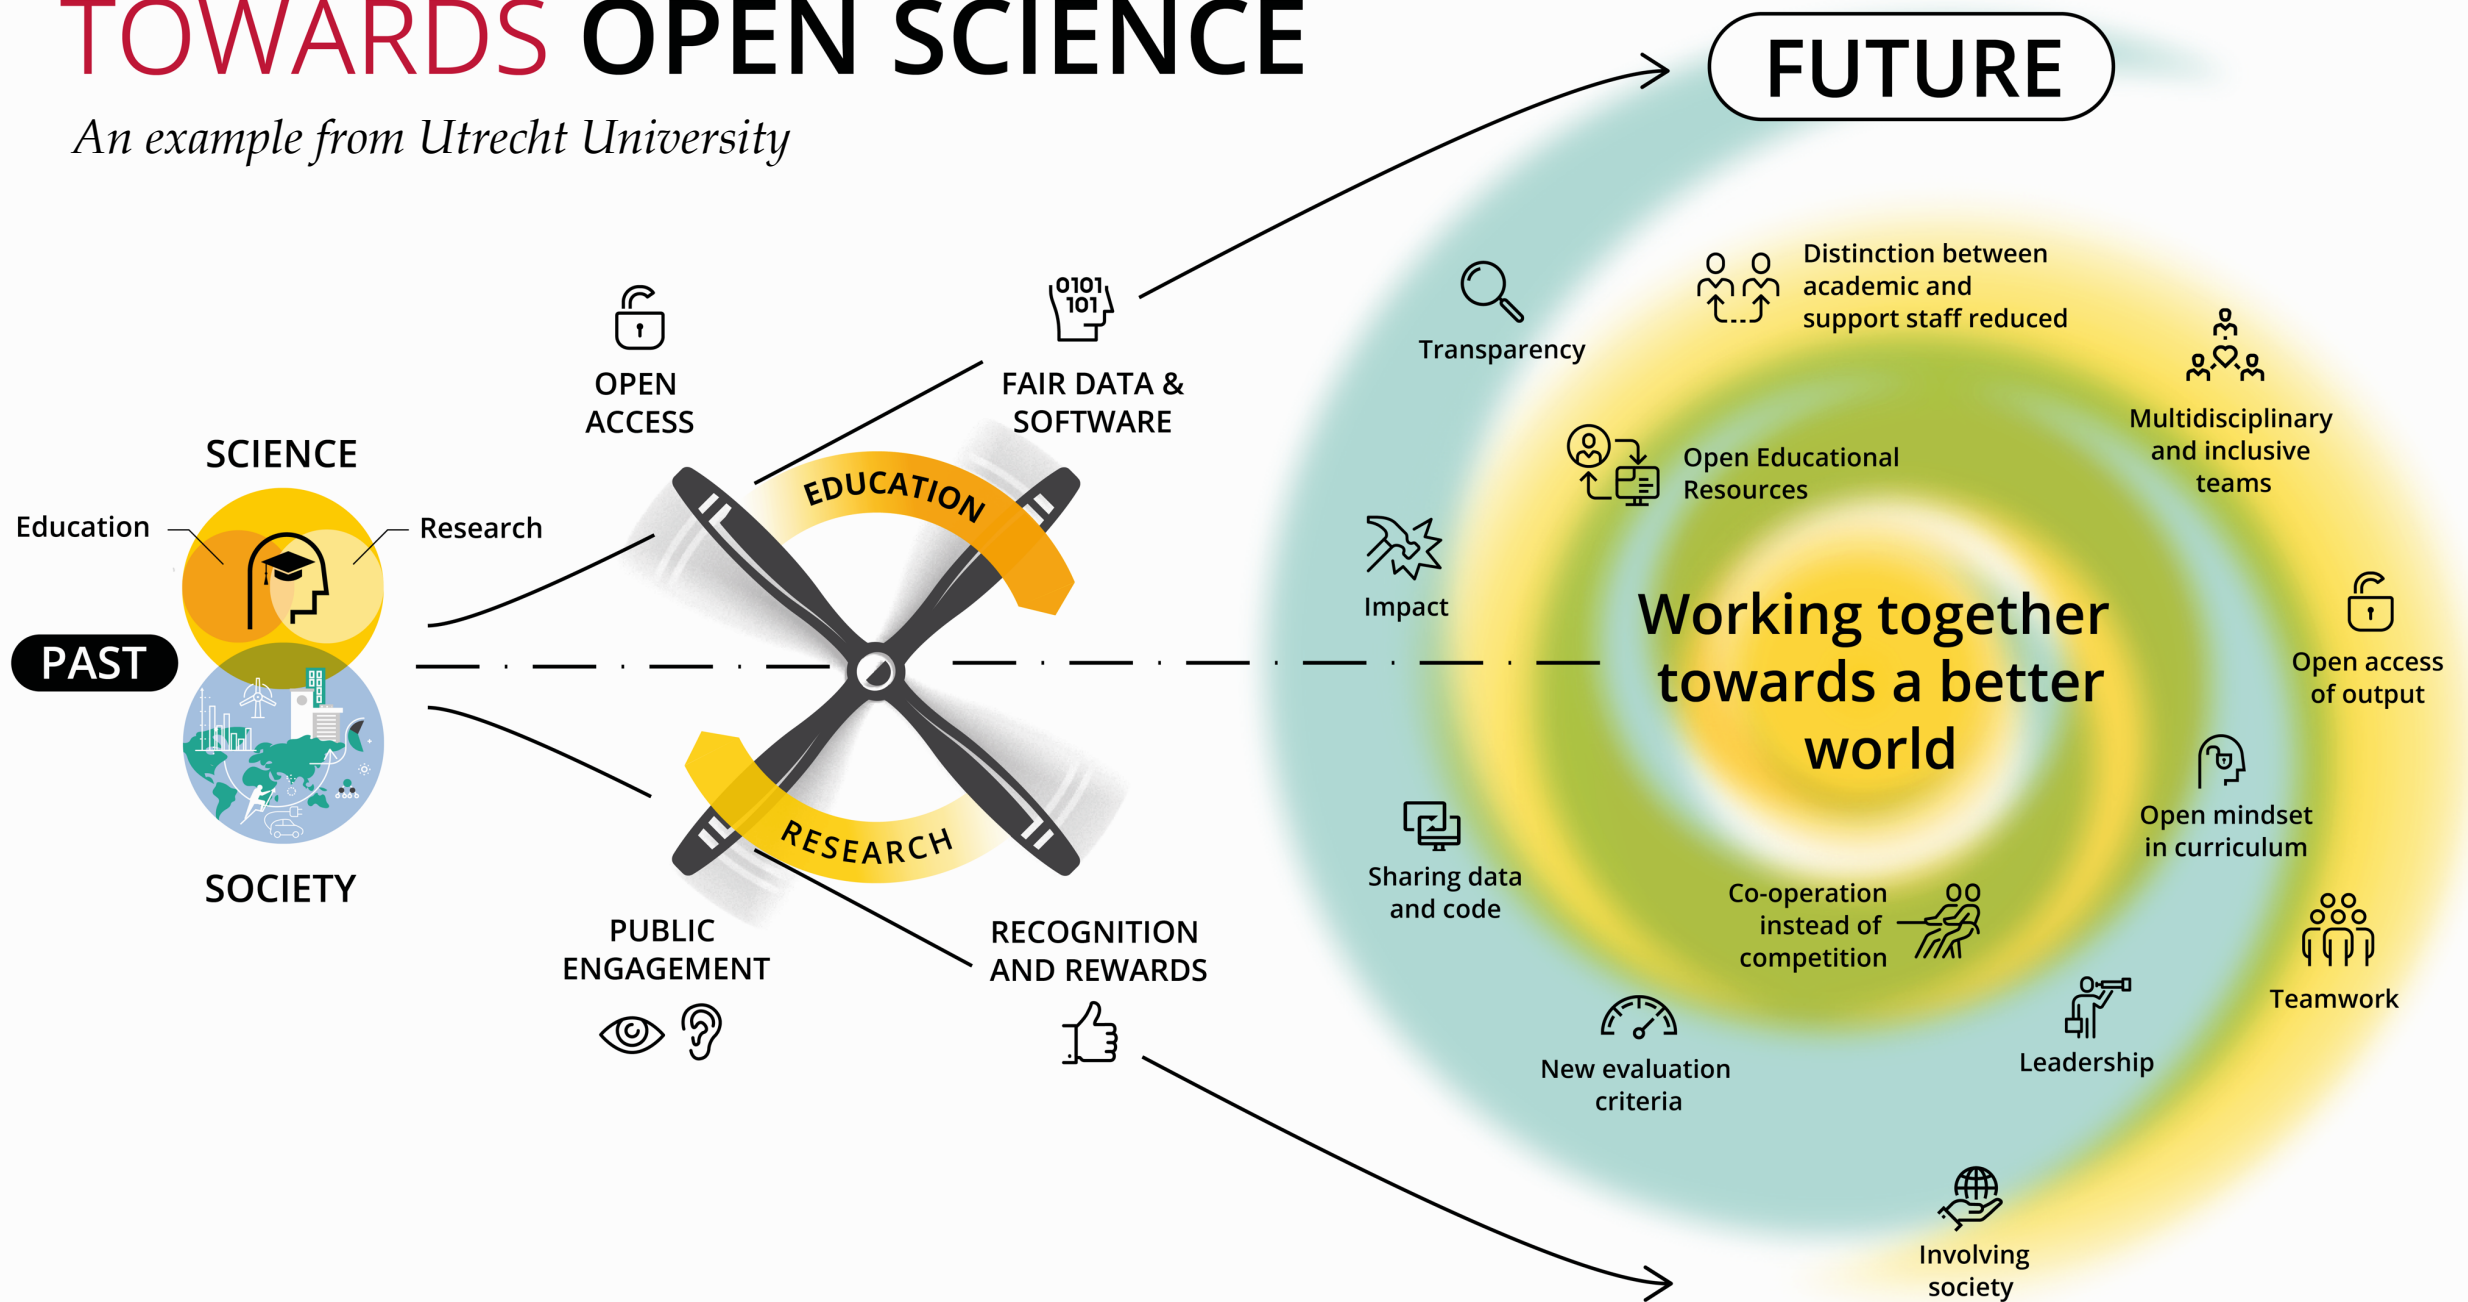

Sustainability

TOWARDS OPEN SCIENCE

An example from Utrecht University

This year, in LU Open Science Days 2024

Crossing boundaries and building bridges
with Open Science!

LUNDS
UNIVERSITET

Day 1 – November 19, 2024

11:30 – 13:00 Registration and lunch

13:00 – 13:20 Welcome speech

You are here!

13:20 – 14:30 Broadening merits: Recognising Open Science contributions in research

14:30 – 15:00 Coffee break

15:00 – 15:45 Open Science stories and initiatives

15:45 – 16:30 Film screening and discussion: Creative science communication

16:30 - ☺ Poster mingle and reception

Building Bridges with Open Science: Be Among the First to Kickstart the Open Science Community at Lund!

Are you eager to shape the future of open science and be part of a growing movement at Lund University? Join us during the LU Open Science Days for interactive community-building sessions and become a founding force behind the new Open Science Community Lund (OSCL)!

Community Building Session

Let's work together – Starting today!

LUNDS
UNIVERSITET

Some instructions

- We work in small groups
- We think and brainstorm ideas for micro-actions
 - Micro-actions are simple, practical steps we can take as individuals or in our groups, or in the Departments
 - They don't require formal approval or resources
 - E.g. I'll arrange a lunch seminar on OS for the Department!

My field is different than yours.. My Open Science goals are not!

It might be difficult to change routines when there is long tradition in a field.

If you cannot change (yet) the routines, you can still **change your way of thinking!**
Others will follow!

“

Our responsibility is to do what we can, learn what we can, improve the solutions, and pass them on.

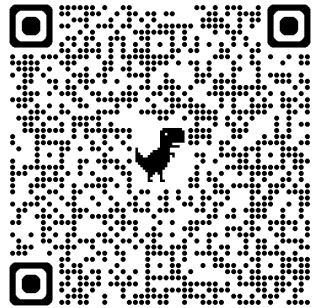

RICHARD FEYNMAN

**My field is different than yours..
My Open Science goals are not!**

Open Science Community Lund

Join us!

LUNDS
UNIVERSITET

Thank you!

From the Organisers
